

Visitors statement

The safety, privacy, and wellbeing of all children, staff, and visitors are our highest priorities.

While on the nursery premises, **all visitors** will be issued with a **visitor's lanyard** to confirm identity/or wear an **official picture ID lanyard** from employer.

Visitors **must** follow our **Digital Device Policy** and emergency evacuation procedures.

Requirements:

- Must always wear a **GrandirUK visitor's badge** issued by the nursery.
- Visitors **must** be made aware of the **safeguarding and health and safety information** contained on the visitor lanyard, which includes the procedures to follow should they observe or have concerns about the safety or welfare of a child during their visit to the nursery.
- All **mobile phones** **must** be handed in at the office upon arrival. Devices **must** be switched off, signed in on the digital device register, and stored securely for the duration of your visit. Alternatively, visitors must declare if they do not have a mobile phone.
- Visitors **must not** wear or carry any **digital or recording devices** (e.g. smart watches, fitness trackers, smart rings, or smart glasses). These **must** also be switched off, handed in and signed in. This helps to protect privacy, prevent the potential for unauthorised recording, and ensure a safe and secure environment for everyone.
- All boxes **must** be ticked in the visitor signing in book to confirm understanding and compliance with requirements.
- Your safety is important to us. If you require **assistance during an emergency evacuation**, please inform a member of staff upon arrival. We are here to support you and ensure your safe evacuation if needed.

Thank you for your cooperation.
