

# Nature Scavenger Hunt Activity Card

This activity will develop your child's listening and understanding skills which are crucial for the development of speech, phonological awareness and ultimately learning to read.

## WHAT DO I NEED

1. Paper
2. Pencils/pens

## METHOD

1. Create a list of items with your child that they want to either find, hear, smell or touch on their hunt
2. Include things that are easy to find and more challenging items
3. Notice what your child is interested in and what they have to say
4. Encourage your child to spend time to really listen to what is around them
5. Talk about what else they noticed during their hunt
